Donor Advised Funds

Donor Advised Funds are charitable funds for donors seeking active involvement in grant making. Donors – and their successors, if desired recommend grants from their fund to support local charities.

Designated Funds

The donor designates a specific charitable organization as the perpetual recipient of the earnings from the endowment fund, knowing that if the charity ceases to exist, another charity serving the same needs will benefit from the endowment.

Field of Interest Funds

Donors who want to target a cause or a specific community needs close to their heart choose a Field of Interest Fund. Simple and flexible, this type of fund always remains relevant since the most effective charities doing work with the cause or in the named community receive annual distributions.

Other Funds

Talk to us about scholarship funds or unrestricted endowments – we can craft the fund that meets your desires and serves your community.
